Oğuzhan ÇART

Phone +90 537 250 3818   Residential Istanbul, Sultangazi
E-mail   oguzhancart1@gmal.com.   LinkedIn OĞUZHAN ÇART

Web developer with the skills to bring innovative UI-UX design to life. I am familiar with Javascript, TypeScript, Angular, Vue and many web frameworks.
Web and mobile applications in line with needs as platform friendly I do. I am passionate about making any product related to Fintech and CRM that interests me. There is an endless interest in making applications that work in mobile and Web environments.

Experience

- **2020 - 2021 Intern Metro Istanbul A.Ş Intern Software Developer**
  Used it to learn Vue JS, make small samples, and other front-end libraries.
  Learned about the use of Back-End technologies.
  Familiarity with ASP.NET Core MVC and building simple applications.

- **2021 Freelancer Full Stack Developer**
  Android Mobile Application Development and Design with Java.

- **2021 - 2022 AIFA SOFT Front-End Developer**
  Designing, building and developing web applications.
  When I was a web trader displaying exchange rates, I would use the web socket to show claim transactions, Log transactions and prices.
  In general, I used websocket and services in the production of price screens, hotel screens, websites that show exchange rates, mobile applications that show prices.
  In the construction of e-commerce site panels and designs, I benefited from the bank API and service architecture.
  I developed a payment module. If I need to explain briefly, which banks you use, you can manage them in a single panel.
  Windows Serve and SQL server management.
  Hosting and Domination operations.
